About FamilySearch Pedigree Resource File:

The Pedigree Resource File is a web browser-based database of names available on computer. The database is a collection of names extracted from various sources. FamilySearch Pedigree Resource File contains family information as organized in family groups and individuals and includes individual names and sources. Many names and sources are not printed from this file. Each name contains a link to a family group, with the information of every line name. A printed index for each name will also be printed and delivered with the set of names. Each name is purchased individually at \$5.00.

Please Note:

Superior information is provided to help in the coordination of research family history research. Use of the information for any other purpose, including marketing, advertising, or commercial education, is strictly prohibited.

The Pedigree Resource File is a new lineage linked database of records available on compact disc containing family history records submitted by individuals through FamilySearch Internet Genealogy Service. Family information is organized in family groups and pedigrees and includes submitted notes and sources. Many charts and reports can be printed from this data. Each disc contains about 1.1 million names. With the publication of every five discs, a master index for those discs will also be published and packaged with that set of discs. Discs may be purchased individually or as sets.

Please Note:

Submitter information is provided to help in the coordination of personal family history research. Use of this information for any other purpose, including marketing, advertising, or commercial solicitation, is strictly prohibited.

Record submitted by a member of the LDS Church. The record often shows the name of the individual and his or her relationship to a descendant, shown as the heir, family representative, or relative. The original records are not indexed, and you may have to look at the film frame-by-frame to find the information you want. A family group record for this couple may be in the Family Group Record Collection; Archive Section. (See the Family History Library Catalog for the film number.) These records are alphabetical by name of the father or husband.

About FamilySearch Pedigree Resource File:

The Pedigree Resource File is a new lineage linked database of records available on compact disc containing family history records submitted by individuals through FamilySearch Internet Genealogy Service. Family information is organized in family groups and pedigrees and includes submitted notes and sources. Many charts and reports can be printed from this data. Each disc contains about 1.1 million names. With the publication of every five discs, a master index for those discs will also be published and packaged with that set of discs. Discs may be purchased individually or as sets.

Please Note:

Submitter information is provided to help in the coordination of personal family history research. Use of this information for any other purpose, including marketing, advertising, or commercial solicitation, is strictly prohibited.

Record submitted by a member of the LDS Church. The record often shows the name of the individual and his or her relationship to a descendant, shown as the heir, family representative, or relative. The original records are not indexed, and you may have to look at the film frame-by-frame to find the information you want. A family group record for this couple may be in the Family Group Record Collection; Archive Section. (See the Family History Library Catalog for the film number.) These records are alphabetical by name of the father or husband.
